

GLOBAL FORUMS

Creating and facilitating global municipal discussion

ABOUT **GLOBAL FORUMS**

This is a platform that enables cities to communicate with each other, present the challenges they are facing and receive solutions on these challenges by other cities with similar experiences. It enables technical peers communicating with each other through a secure platform, considering solutions to their problems and evaluate results. Example: engineers in Greece can talk to engineers in Brazil on any issue/subject.

MAIN **FEATURES**

Discuss

Discuss problems, questions, and solutions between municipalities around the world.

Relevant Topics

Discuss topics such as water loss, waste management, infrastructure and more.

Problem Solving

Share ideas and experiences to improve infrastructure on a global scale.
