MUNICIPAL **PROFILE**
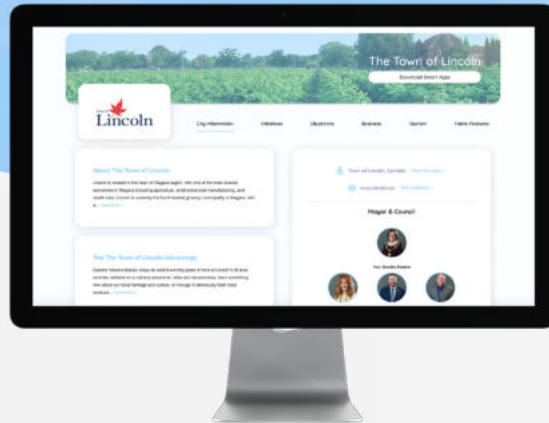

An interactive profile for cities around the world

ABOUT **MUNICIPAL PROFILES**

This is an interactive tool for cities to emphasize various initiatives for business opportunities along with challenges they are facing in any way and means beyond the scope of normal websites. Cities can promote academic initiatives like technology clusters, business parks or areas of future investment that require capital and solicit international funding as part of economic business development. Cities can promote their own tourism in a very focused and localized manner.

MAIN **FEATURES**

Tourism

Highlight points of interest and tourist attractions all through-out a municipality.

Business

Profile key industries and busi-nesses to promote trade and economic development.

Info

Display all municipal informa-tion in an organized fashion, as well as on a dynamic map.
